

CharStrParser::CharStrParser

IdentifierParser::Identifier
Parser

NumberParser::NumberParser

DFA::_add_transition

```
graph LR; A[CharStrParser::CharStrParser] --> D[DFA::_add_transition]; B[IdentifierParser::Identifier Parser] --> D; C[NumberParser::NumberParser] --> D;
```

The diagram illustrates three separate parser objects on the left, each with a blue arrow pointing to a single function box on the right. The function box is shaded gray and labeled 'DFA::_add_transition'. The arrows originate from the right side of each parser box and converge on the left side of the function box.
